

SlideMate™ Laser‡

Enter a new era of precision printing using laser technology

Clarity

- High resolution, 600dpi printing
- Laser-optimized slides provide clear and robust printing surface
- Adhesion slides use same technology as Superfrost PLUS™ slides

Consistency

- True on-demand slide barcode printing
- Reliable laser technology may reduce instances of instrument downtime
- No additional consumables required such as ink, bulbs or ribbon

Confidence

- Improved barcode quality can enhance downstream workflow with improved scannability
- Installation and connectivity support provided by experienced Epredia team

SlideMate Laser Slides

Achieve optimal printing performance

Epredia's SlideMate Laser slides are specifically designed for compatibility with SlideMate Laser.

Key features of these laser optimized slides include:

- 25x75x1mm standard slide size
- Available in adhesion/non adhesion formulations
- Adhesion technology identical to Superfrost PLUS
- Consistent optical clarity based on established Epredia manufacturing procedures
- Available in 5 colors, white, blue, pink, yellow, and green

Key benefits from SlideMate Laser slides include:

- Indelible high resolution printing
- Consistent legible labelling on slide tab
- High success rate of barcode scanning on downstream instrumentation
- Confidently adhere tissue samples from microtomy to sample analysis
